

Quản lý dự án / task / backlog

- Jira

Tài liệu / knowledge base / collaboration

- Confluence

Giao tiếp / họp trực tuyến

- Microsoft Teams
- Outlook

Phiên bản mã nguồn / code review / repository

- GitLab

CI / CD / build automation

- GitHub Actions
- GitLab CI

Containerization / orchestration / release

- Docker

Infrastructure as Code / provisioning

- CloudFormation

Cloud storage / CDN / assets

- AWS S3

Cơ sở dữ liệu / caching / search

- PostgreSQL

Backend / API / frameworks (đề xuất)

- Node.js (Express / NestJS)
- Java Spring Boot

Frontend / web

- React.js
- Next.js

- TypeScript

Mobile

- React Native (TypeScript)
- TestFlight (iOS)
- Google Play Console (internal testing / release)

Payment / thanh toán

- Momo

Authentication / security patterns

- OAuth2 / JWT
- Vault / AWS Secrets Manager (secrets management)
- WAF; TLS everywhere; OWASP best practices

Monitoring / logging / error tracking / APM

- Prometheus
- Grafana
- ELK stack (Elasticsearch / Logstash / Kibana)
- Sentry

Performance / load testing

- k6
- JMeter

Test automation / QA

- Cypress (web E2E)
- Appium (mobile)
- TestRail (test case management)

Security / dependency scanning

- OWASP ZAP

API testing / docs

- Postman

Design / prototyping / wireframing / handoff

- Figma

Diagramming / flowcharts

- Draw.io (diagrams.net)

Analytics / usability / user feedback

- Hotjar

Feature flags / release control

- LaunchDarkly
- Unleash

Mobile push / notifications / messaging

- Firebase Cloud Messaging
- OneSignal

Error/issue tracking / support / CRM / ticketing

- Zendesk
